THE TROUBADOUR

JULY 26, 2010

ISSUE 148

CLASSROOM, OFFICE RELOCATIONS ANNOUNCED DUE TO FLOOD DAMAGE

As a result of Thursday's torrential rain, several areas on the main campus have been damaged and repair efforts are underway.

On the main campus, flooding occurred in the basement of every building with the exception of new Bonaventure Hall, the Powerhouse, and the Stein Center. Flood damage did occur in the University Archives, but no archive material or records were damaged.

There was also some main floor flooding of the Student Union. Roof leaks have been reported in the center wing of Clare Hall, the Fieldhouse, and the Library. However, these leaks should not affect the timeline for the opening of the renovated Athletics facilities or the new Information Commons on the first floor of the Library.

Roof leaks were also reported on the City Center campus, but no other damage was reported there or at any of the other Milwaukee-area classroom sites, said Jack Glynn, director of facilities.

A damage estimate and a timeline for repair are still being established, but a two- to three-week timeframe for repair is the preliminary estimate for the most critical areas. Other work may take significantly longer.

The most extensively damaged areas will need new carpeting installed, drywall repaired, and fresh paint. A total of about 15 computers in both Assisi and Duns Scotus halls were also damaged.

"All of the damaged carpet and drywall has been removed so we're off to a good start in the cleanup," said Janet McKnight, director of treasury and risk management. "We have made tremendous progress over the last three days."

All campus activities are taking place as normal, but the damage has required the University to make adjustments to assigned classroom space for students and office space for some faculty.

For students who meet in the basement of Duns Scotus Hall, please note the following temporary classroom assignments. These room changes are effective until further notice.

In addition, faculty members who have offices in the basement of Clare Hall have been assigned temporary office space, primarily in Bonaventure Hall.

Please note the room assignments below:

Updates and additions to these lists will be made on the Stritch Web page at www.stritch.edu. Please check the site often for new information.

Glynn is coordinating the cleanup and repair process. If you suspect that flood damage has occurred in an area that has not been reported as yet, please contact him at (414) 410-4313 with questions.

McKnight is coordinating with the University’s insurance carrier to collect the pertinent financial information and filing the claim. Any University employee that spends any time devoted to flood-related cleanup work should report that time to McKnight at (414) 410- 4229.

Damaged materials/equipment must be inventoried before being discarded, so please contact Glynn or McKnight if you have materials to report.

STRITCH OFFERS HELP TO NEIGHBORS

Despite the damage to campus, Stritch has found ways to extend a hand to its neighbors. On Thursday afternoon, a group of Stritch students helped push stranded cars along Port Washington Road out of harm’s way – an effort that caught the attention of a WITI Fox 6 camera crew:

In addition, Stritch has reached out to Nicolet High School, which sustained severe damage. Since the school will be without power for the next week or two, about 20 members of the school’s staff will establish operations in Bonaventure Hall. Phone calls to Nicolet will be forwarded to the staff members that operate on campus. In addition, a public school conference to be hosted by Nicolet Aug. 3-6 will also be relocated to Bonaventure Hall.

THE TROUBADOUR

The Troubadour supports the overall mission, goals and objectives of Cardinal Stritch University, and is meant to serve as a communications tool for the campus community. If you have feedback or story ideas, please contact Public Relations at prdept@stritch.edu.
